

# RETENTION STRATEGIES

Enhance your  
knowledge!

## LEARN WITH EXPERTS! Topics & Presenters:

Retention is the major concern of organizations of all sizes and in every economic sector. In order to retain top performers, effective strategies must take into consideration the impact of future changes, new required skills sets, create appropriate career ladders, explore new succession planning methodologies. Join us for the October session of the HR in a Box series that will provide you with an opportunity to learn from HR experts how to design innovative strategies to maintain a healthy employer-employee relationship that delivers retention.

Claudia Verburgh, CPHR, will provide expert tips for efficient employee engagement strategies and explore what will employee engagement look like in an age where “digital employees” will co-exist with a traditional workforce.

Doug Alloway, will discuss the evolving critical role of succession planning particularly with the incoming impact of technological advances that will reconfigure the way we all work.

The session will invite you to provide input into case studies that will form the basis of the group work during the session. You will share ideas, work together on strategies, develop practical solutions to real issues, and take away tips and tools to implement at your workplace.
